

Luca Doobie

He is a brilliant example of music can be dangerously addictive to a man.

Guitar player since the age of 10, he's now one of the most important artists in the ever growing Milan's underground dance scene. During the last ten years he has been deejaying, producing, engineering, mixing and mastering music while showing patience, passion, creativity and technical skills. His personal musical sensibility easily brought him through styles that range from punk, indie rock, jazz,

fusion, black music, hip hop, electronica, drum and bass, house and techno.

The first release as producer appeared in the year 2000 as he was studying Sound Engineering, and while for the first 7 years of studio productions his attention was more focused on the technical development of the music, since 2006 Luca turned his attention to the artistic and creative side, working on few different projects like Prospettive Sotteranee (released on Safari Electronique) and Anomaline (released on Anomaline Records) showing off his taste and style.

His vision of club music is based on the groove born with the funk of the seventies, so everything rolls with deep kicks, rumbling sub frequencies bass lines, sharp beats and groovy percussions, a creative and fresh use of the effects and the musical elements generated by synths or simply stolen from old dirty sixties and seventies records.

As a dj he has been playing around Milan's both mainstream (The Flame @ Amnesia Milano, Queen @ Gasoline, Physical @ LeJardin) and alternative booths (Input @ Leoncavallo, R!Evolution909 @ PergolaTribe, Trak @ Bitte, Trak @ Tunnel, Privat Party), also monthly hosted by Guida Nella Giungla (every Thursday on Radio Popolare) with a selection of favourites underground house and techno newest tunes.

Forthcoming releases on Paradigma, Heimatmelodie, Off, Informale, ThisOrder.
