

## Nihil Young

Nihil Young is born in 1987 and raised in Palermo, Sicily. He was a kid when he fell in love with the music, especially listening to old school hip hop, breaks, jazz and classical music. His passion for hip hop music brings him to buy his first console for his 15th birthday and he decide to learn the art of turntablism and scratching techniques. The same year he participates to the ITF Italian scratching competition gaining a good ranking. After that he participates to another national competition and he gains the 3rd place.

After he finished high school, he discovers techno and deepens the electronic music knowledge, falling in love with synthesizers: this brings him to begin his own Techno and minimal production in the end of 2007.

After a year of preparation, in which he participates as producer in projects like "Fuzzy Hair vs. Alex D'Elia - The sun (Mylo Records)" and "Alex D'Elia - Genuine EP (BluFin rec.)", he is going to release his solo productions and other productions made with the companion Alex D'Elia on well known techno/minimal labels like Italo Business, Autist Records, Paradigma Musik, Malatoid Recs, Kaufe Music, Mystika and others.

2009 is also the year of birth of Alex D'Elia's Frequenza Records, that Nihil participated to create and in which he's an active element.
