## info sheet 010

Paradigma Musik is proud to present a very well rounded 3 track E.P. from bRUNA including an effective remix from Marc Marzenit. Paradigma doesn't conform to genres, but release music that excites them from artists that excite them.

The release Paradigma brings you today is from bRUNA. A young lawyer from Barcelona hides behind this electronic music project which, according to some experts, it's not bad at all. He's a confessed music lover who has been playing records in some of the most selected places around (in 2007 was selected to enjoy the Toronto's Red Bull Music Academy, and he has also played in the 2006, 2007 and 2008 editions of Sónar Festival). With works released on Softstar Records (Austin / Texas) and with the imminent release of an entire LP on the prestigious Catalan record label spa.RK, bRUNA presents his long awaited "Heartache EP": two sensitive tracks with intense emotional content, accompanied by a sublime reinterpretation by his beloved and admired friend Marc Marzenit.

He uses classical strings to perfection in the opener 'From Lovers To Friends', some Parisian'esq vocal lushness in 'We Are Losing Touch' and rounding off the package is Marzenit's reworking of the former which toughens things up and delivers it ready for the floor.

A very unique release and one that we feel will find many fans.
